Создание постов

Нам нужно сделать 2 поста: создаем файлы с помощью командной строки и команды `hugo new post/post5.md`, затем `hugo new post/post6.md` и редактируем информацию: описываем нашу неделю в пятом посте, и добавляем научную статью в шестом посте.

Creating presentations

The word "presentation", although it sounds fashionable and loud, actually (in most cases) implies a document of several sheets (slides) with text and graphic information (something like wall newspapers that were in use 20-25 years ago, before the popularity of the PC).

The third post about the past week

I spent this week very productively. I had 3 test papers, I went to all classes and managed to do a lot of things. I also walked around Moscow with my boyfriend, we ate in my favorite chocolate bar) On the weekend I went to my aunt in Elektrostal, rested with her, ate and drank delicious.
